CTPAT Compliance Required- Safe Port Act 2006

Customs Trade Partnership Against Terrorism will be required of every importer. Imported Goods receive preferential treatment when an Importer is CTPAT certified.

Customs-Trade Partnership Against Terrorism (C-TPAT) is a joint initiative between U.S. Customs and Border Protection (CBP) and business. Evolutions in Business offers consulting services to help customers enhance their cargo security procedures for their personnel, facilities and supply chain partners in order to become certified. More and more companies are making cargo security their top priority by applying for C-TPAT certification. It's time your company started this process too!

The US government has offered CTPAT Certified importers:

Fewer shipment inspections.
Faster customs processing of your cargo.
A more secure supply chain.

Since 1989, Evolutions in Business has been engaged in training corporations in Export and Import Regulations, (EAR) and (ITA) Compliance, NAFTA and the Customs Mod Act, Export Documentation, Letters of Credit and now CTPAT. In that time we have trained thousands of individuals from various corporations including, Brooks Automation, Bruker Datonics Lucent Technology, Raytheon, Segway, Simplex, Lockheed Ma Timken, TYCO, Munters, just to name a few.
